NCKU Moodle Instruction Manual

The "forum" let teachers and students be able to interact with learning.

Teacher can enable the "anonymous discussion" function, each post or reply will not show the original author, so that students can issue the discussion more confidently.

【Note】 When the user wants to publish the theme and respond to anonymously, the system will automatically switch to "anonymous" user, the user must switch back to their original identity.

I. Enable Anonymous Discussion Feature

In the setting page, enable the anonymous discussion feature by setting "Anonymous" as Yes. The default value is No.

The screenshot shows the 'General' settings for a forum. The 'Forum name' field is empty. The 'Description' field is a rich text editor with a toolbar containing options like Paragraph, Bold, Italic, Bulleted list, Numbered list, Link, Unlink, and Image. Below the description is a 'Path' field with the value 'p'. The 'Display description on course page' checkbox is unchecked. The 'Forum type' dropdown is set to 'Standard forum for general use'. The 'Anonymous' dropdown is set to 'Yes', and this section is highlighted with a red dashed box and a red arrow pointing to it.

II. Added Anonymous Discussion Topics

1. Enter the forum and click the "Add an anonymous new discussion topic" button

2. When you post a topic, the system will automatically switch to "Anonymous", so press the "Continue" button

3. From the top of the screen you can see that you have switched to an anonymous.

4. Typing the topic and content, then press the "Post to forum" button

YouTUBE has been designed to only allow users to watch and view videos on their website. Many users want to download or save their favorite YouTube videos to their computer so they can watch them without being connected to the Internet or on other devices. Below are the steps required for downloading and watching YouTube videos on your computer for free.
