NCKU Moodle Instruction Manual

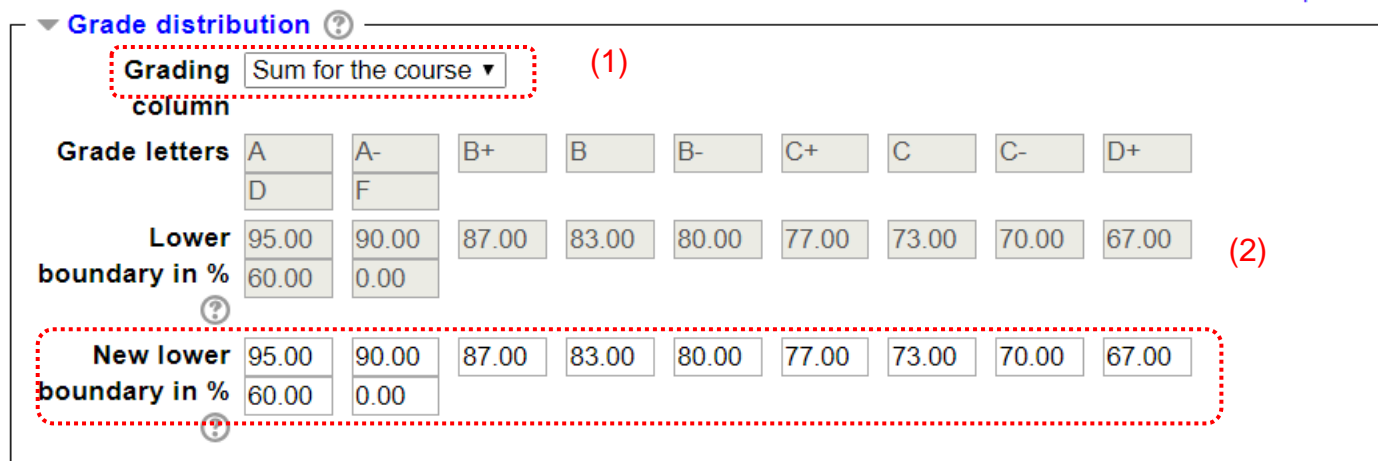

I. Grade Distribution

The grade distribution module allows for viewing the distribution of student grades for a course regarding the current grade letter boundaries as well as changing these to shift the distribution.

Administration → Grade → View → Grade distribution

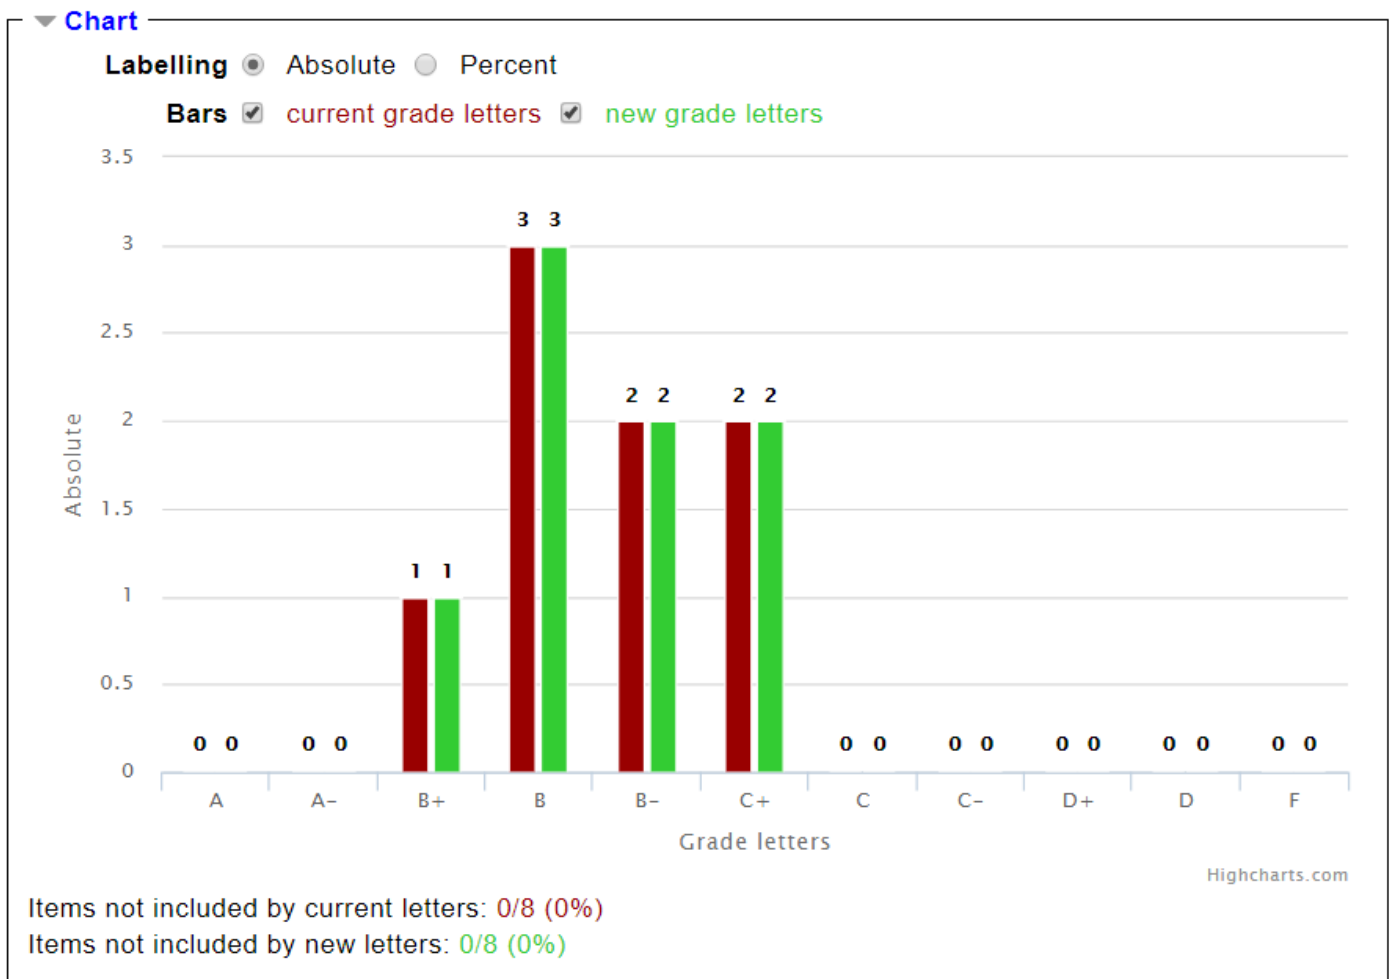

You can select the grade item and change to letter grades (i.e. the boundary of a grade) can be analysed visually, saved and therefore overwritten if necessary.

[Note] You also can change the letter grade with Letters.

System will show the graphic chart:
